2.6 Rationale for and Benefit of the RRPT

The Proposed RRPT Mandate will benefit the Group by facilitating the Watta Group to enter into transactions described in Section 2.5 with the Related Parties specified in Section 2.4 in the ordinary course of the Group's business on normal commercial terms and in a timely manner. The Proposed RRPT Mandate will also eliminate the need for the Company to announce and/or convene separate general meetings to seek shareholders' approval prior to entering into such transactions with the specified Related Parties. This would thereby reduce substantial administrative time, inconvenience and expenses associated with the convening of such meetings without compromising the corporate objectives of the Group or adversely affecting the business opportunities available to the Watta Group.

The RRPT as outlined in Section 2.5 above are of a revenue or trading nature in the ordinary course of business of the Watta Group which are transacted from time to time with the Related Parties at market prices or lower but within arm's length basis. The normal commercial terms of the RRPT are not more favourable to the Related Parties than those generally available to the public, not prejudicial to the interest of the shareholders and are not detrimental to the minority shareholders of Watta.

The leasing by the Group of the premises in Menara Cosway, Plaza Berjaya from Zitron is due to its strategic location and monthly rental which is reasonable in view of the location of the premises in the Golden Triangle of Kuala Lumpur. Z'tronic, an established tour and ticketing agent has been offering the Group with both competitive pricing and quality services. Zitron and Hello Station are established distributors of cellular telephones and related parts and accessories both offer competitive pricing for their products. The purchases of phone parts by Mobile Technic from Hello Service Centre and Zitron are based on competitive pricing and are conducted on an arm's length basis and on normal commercial terms that are not more favourable to the related parties than those generally available to the public and are not to the detriment of the minority shareholders.

SEMS provides service maintenance and repair of phone to Midland Network and the transactions are conducted on an arm's length basis and on normal commercial terms which are not more favourable to Midland Network than those generally available to the public and not to the detriment to the minority shareholders of Watta and are consistent with the Group's usual business practices and policies.

The sale and purchase of cellular telephones and related cellular telephone accessories between Watta Energy and Zitron and Hello Station are expected to enhance the business operations of Watta Energy. This will be undertaken based on competitive pricing and conducted on an arm's length basis and on normal commercial terms that are not more favourable to the related parties than those generally available to the public and are not to the detriment of the minority shareholders.

The sales and purchases of cellular telephones, telecommunication and audio visual equipment and all kind of gadgets and IOT peripherals by SEMS from Midland Network and Zitron are based on competitive pricing and are conducted on an arm's length basis and on normal commercial terms that are not more favourable to the related parties than those generally available to the public and are not to the detriment of the minority shareholders.

Overall, the products and/or services provided by Hello Station, Hello Service Centre, Zitron, Z'tronic and Midland Network meet the requirements of Watta. The close co-operation between the Watta Group and the Related Parties have reaped mutual benefits and have been and is expected to continue to be of benefit to the business of the Watta Group.

2.7 Guidelines and Review Procedures

The Watta Group implements the following guidelines and procedures to ensure that the RRPT contemplated under the Proposed RRPT Mandate are undertaken on transaction prices and terms which are generally not more favourable to the Related Parties than those generally available to the public, not detrimental to minority shareholders and are in the best interest of the Group:-

(i) Methods for Determination of Transaction Price

- (a) The pricing of the product/service is negotiated between Watta Group and the Related Parties based on prevailing market prices. A database or quotations obtained from third parties are being maintained by the Company. This information would provide true and fair evaluations and ranking of the price, delivery, services and other terms and conditions before entering into such transactions.
- (b) Any tender, quotation or contract received from or proposed to be entered into with a Related Party will not be approved unless:-
 - at least 2 other contemporaneous transactions with unrelated third parties for similar products/services and/or quantities will be used as comparison, wherever possible, to determine whether the price and terms offered to/by the Related Parties are fair and reasonable and comparable to those offered to/by other unrelated third parties for the same or substantially similar type of products/services and/or quantities.
 - In the event that quotation or comparative pricing from unrelated parties cannot be obtained, the Watta Group's pricing for the RRPT will be determined in accordance with the Group's usual business practices and policies, consistent with the usual margin of the Group for the same or substantially similar type of transactions made by the Group with unrelated third parties; and
 - the terms are not more favourable to the Related Parties than those extended to unrelated third parties and available to the public and the RRPT are not detrimental to minority shareholders of Watta.

(ii) Approving authority in relation to RRPT

The thresholds for the approval of RRPT within the Watta Group are as follows:-

- (a) Where the RRPT is one with a value below RM500,000, it will be reviewed and approved by any one Director of the Company who has no interest in the transaction.
- (b) Where the RRPT is one with a value equal to or in excess of RM500,000, it will be reviewed by the Audit Committee and approved by the Board.

(iii) Monitoring of RRPT

- (a) A list of Related Parties will be circulated within the Group to notify that all RRPT are required to be undertaken on arm's length basis and on normal commercial terms which are not more favourable to the Related Parties than those generally available to the public and not detrimental to the minority shareholders.
- (b) All Department Heads are required to report on all transactions involving Related Parties.

- (c) The Company shall keep a record of all RRPT which are entered into pursuant to the Proposed RRPT Mandate which will be available to the Audit Committee for inspection, as and when required.
- (d) All RRPT shall be tabled to the Audit Committee for review on a quarterly basis. Any member of the Audit Committee may as he deems fit, request for additional information pertaining to the transactions under review from independent sources or advisers, including obtaining valuations from independent professional valuers.
- (e) The internal audit functions will conduct periodic reviews of any or all of the RRPT to ascertain that the relevant approvals have been obtained and the guidelines and review procedures in respect of such transactions are adhered to. Any divergence is reported to the Audit Committee.
- (f) The Audit Committee will review the internal audit reports to ascertain that the guidelines and review procedures established to monitor the RRPT are complied with.
- (g) Should the Audit Committee during its review determine that the guidelines and/or procedures are inadequate or have become inappropriate or certain RRPT are not being conducted on arm's length basis or normal commercial terms and are detrimental to the interests of the minority shareholders, the Company will be advised to obtain a fresh shareholders' mandate for those transactions based on the new guidelines and/or procedures.
- (h) The Audit Committee shall also have the discretion to request for limits to be imposed or for additional procedures to be followed if it considers such a request to be appropriate. In that event, such limits or procedures may be implemented without the approval of shareholders, provided that they are more stringent than the existing limits or procedures.
- (i) The Board and the Audit Committee have reviewed the procedures and shall continue to review the procedures as and when necessary. If a member of the Board or the Audit Committee has an interest, whether direct or indirect, in a transaction to be reviewed by the Board or the Audit Committee, as the case may be, he/she will abstain from all deliberations and voting on such transaction.

3. STATEMENT BY THE AUDIT COMMITTEE

The Audit Committee has considered the guidelines and review procedures mentioned in Section 2.7 above and is of the view that:-

- (a) the said procedures are sufficient to ensure that the RRPT are conducted at arm's length and on normal commercial terms which are not more favourable to the Related Party than those generally available to the public and are not to the detriment of the minority shareholders;
- (b) the Watta Group has in place adequate procedures and processes to monitor, track and identify RRPT in a timely and orderly manner; and
- (c) The Audit Committee will review these procedures and processes on a yearly basis or whenever the need arises with the authority to sub-delegate such function to individuals or committees within the Watta Group as it deems appropriate,

and the same has been reviewed and approved by the Board.

4. FINANCIAL EFFECTS OF THE PROPOSED RRPT MANDATE

The Proposed RRPT Mandate will not have any effect on the issued and paid-up share capital of Watta and it will not have any financial effects on the consolidated earnings and net assets of the Watta Group.
